**BMP #5: Ensure that controls are installed that shall prevent or minimize water quality impacts. The permittee shall inspect all qualifying development or redevelopment projects during the construction phase to ensure proper installation of the approved structural PCSM BMPs. A tracking system (e.g., database, spreadsheet, or written list) shall be implemented to track the inspections conducted and to track the results of the inspections (e.g., BMPs were, or were not, installed properly).**

1. During the reporting period have you inspected all qualifying development and redevelopment projects during the construction phase to ensure proper installation of approved structural BMPs?  
 Yes  No  Not Applicable (no qualifying projects during reporting period)
2. Has a tracking system been established and maintained to record results of inspections?  
 Yes  No

**BMP #6: Develop a written procedure that describes how the permittee shall address all required components of this MCM.**

Have you developed a written plan that addresses: 1) minimum requirements for use of structural and/or non-structural BMPs in plans for development and redevelopment; 2) criteria for selecting and standards for sizing stormwater BMPs; and 3) implementation of an inspection program to ensure that BMPs are properly installed?  Yes  No

**MCM #5 Comments:**

BMP #1 - Question #2 & BMP #2 - Question 2: The Township's stormwater management ordinance is consistent with Washington County's Act 167 plan.

**MCM #6 – POLLUTION PREVENTION / GOOD HOUSEKEEPING**

**BMP #1: Identify and document all operations that are owned or operated by the permittee and have the potential for generating pollution in stormwater runoff to the MS4. This includes activities conducted by contractors for the permittee.**

1. Have you identified all facilities and activities owned and operated by the permittee that have the potential to generate stormwater runoff into the MS4?  Yes  No
2. When was the inventory last reviewed? November 2015
3. When was it last updated? November 2015

**BMP #2: Develop, implement and maintain a written O&M program for all operations that could contribute to the discharge of pollutants from the MS4, as identified under BMP #1. This program shall address stormwater collection or conveyance systems within the regulated MS4.**

1. Have you developed a written O&M program for the operations identified in BMP #1?  Yes  No
2. Date of last review or update to written O&M program: May 2016

**BMP #3: Develop and implement an employee training program that addresses appropriate topics to further the goal of preventing or reducing the discharge of pollutants from operations to the regulated small MS4. All relevant employees and contractors shall receive training.**

1. Have you developed an employee training program?  Yes  No
2. Date of last review or update to training program: May 2016                      Date of latest training: 5/13/2016

3. Training topics covered:

Vehicles & Equipment (Fueling, Washing, Maintenance, Storage), Materials (Storage & Handling), Spills & Leaks, Street Sweeping, Salt Storage & Winter Road Maintenance

4. Name(s) of training presenter(s):

Engineering Department - Mark Zemaitis and Jason DiLoreto

5. Names of training attendees:

Public Works & Parks Departments: Adam Tarbert, Ed Rogan, Gino Summaria, Greg Lugar, Nick Trocano, Jonathan Filippi, Kevin Cushey, Ben Mountain, Garrett Sanders, Ron Sweeney, Jay McCoy, Rob Wilkes, Jared Scott, Carmine Carrick, Tracy Lawrence, Floyd White, Tom Shearer, Jay Mizia, Jeff Wilmot, John Agostinella, Joe Hursen, Pete Overcashier, Matt Blasch, Ron Fletcher

**MCM #6 Comments:**

Engineering department developed and provided 14 checklists related to O&M topics discussed at the last training event. The checklists have a list of tasks and the required frequency of reviewing that item. Completed checklists are given to the engineering department for record keeping on a semi-monthly basis. The Township will resume holding an annual training event for public works and parks departments during this upcoming reporting period.
