TO: The Citizens of Peters Township

Peters Township's Home Rule Charter requires the annual public presentation of an independent financial audit of the Township conducted by a certified public accountant. I am pleased to submit for your review, the Comprehensive Annual Financial Report of Peters Township for the fiscal year ended December 31, 2013 in fulfillment of this requirement.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a framework of internal controls that is established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements

Hosack, Specht, Muetzel and Wood LLP, Certified Public Accountants, have issued an opinion without qualification on Peters Township's financial statements for the year ended December 31, 2013. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statement. Management's discussion and analysis is intended to complement this letter of transmittal and should be read in conjunction with it.

The Comprehensive Annual Financial Report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the government's organizational chart and a list of principal officials. The financial section includes the financial statements with an opinion of the independent certified public accountant based upon their audit. The financial section also includes the management's discussion and analysis (MD&A), which is a narrative introduction, overview and analysis of the basic financial statement. The statistical section includes selected financial and demographic information, generally presented in a multi-year basis.

completed in 2013 including the St. Clair Hospital outpatient facility and Market District Express grocery store/café.

Real estate tax assessments continue to be a concern with over 100 active tax appeals. The County has finally commenced the countywide reassessment program, but it is not expected to be in effect until 2017.

Major Initiatives

The purpose of the Home Rule Government of Peters Township is to efficiently serve the residents, businesses and property owners of the community by providing them with a safe and enjoyable community. This requires the various departments of the municipality to do their share in creating a livable community.

In developing the budget and objectives the Township Council and staff is cognizant of the vision set for the Township, to create a thriving, proactive and cohesive community with unique and viable neighborhoods with a well maintained park and trail system, linking neighborhoods. A balanced business and industrial base must be maintained with an efficient transportation network. We seek to partner with community groups and the school district.

The municipal government's role in achieving this vision is through four basic divisions:

1. General Government
2. Protection of Persons and Property
3. Public Works
4. Culture and Recreation

The community needs a sound infrastructure to serve its residents, businesses and property owners, as well as to protect property values in the future. The municipality must also protect its residents, businesses and property owners, as well as their properties. The municipality must provide a social atmosphere that will encourage the community's viability in the forms of recreation, social services, aesthetics, sound economic base and responsiveness to community problems. Finally, the municipal government has a responsibility to inform the public of its activities and plans to permit the residents and property owners the ability to assess the effectiveness of their government and make known their opinions.

GENERAL GOVERNMENT

The basic functions of the municipality need a variety of support and coordinating services to permit them to operate. These services also act as the implementation arm for Council's policies. These services include management, finance, tax collection, communications, and professional services, such as legal, engineering and accounting. The objectives in 2014 include:

1. Communicating to the community through 6 "In Peters Township Magazines" a calendar, the website and cable channels and continue social networking presence through Facebook and Twitter

2. Employ an intern to assist in revising the personnel and policy manual and a part time clerical person to assist in back up functions and manning the receptionist area.
3. Improve workplace safety and security in all buildings, working incrementally with developing safety measures in the municipal building first, through the safety committee and a design consultant.
4. The Township will assure a sound financial system by continuing to contract for real estate tax collection services and participate in the County-wide Tax Collection Committee for earned income and local services taxes.
5. Consulting and in-house professional staff will be utilized to conduct an audit, general legal services and engineering services. An assistant engineer will be hired, whose costs will be partially mitigated by reducing use of consultants.
6. Provide design and oversight of construction projects including resurfacing, storm sewers, stormwater management, updating pavement management program, and expansion of mapping layers and digitized files.
7. Provide a sound technological support system by examining the contracting out of IT services after the planned retirement of the IT Director, replacing 8 desktop computers in the library and municipal building and 2 Council laptops as well as storage system and security system.

PROTECTION OF PERSONS AND PROPERTY

The Township provides or finances a variety of services to protect the public and property; these include police, fire, ambulance, planning and inspection. The objectives for 2014 include:

1. To continue a proactive approach to addressing the health and needs of the community, continue to provide prevention programs to students such as DARE and the School Resource Officer; this include providing equipment such as a video projector and Danger in Every Step and provide a school crossing guard.
2. Provide direction to police officers to ensure they are adequately trained and have the facilities to serve the community by providing at least the minimum MPOETC training and firearms requirements, a new breath testing device, ENRAD speed timing device, communications equipment for the high school, digital video camera and recorder and continuing with the DUI and Aggressive Driving grant funded programs.
3. Participation in regional programs to increase effectiveness such as the police CIRT response team, Fire RIT team and mutual aids with North Strabane and increased

mutual aid with Upper St. Clair and Bethel Park as well as active participation in the SHACOG Police and Fire Chief committees.

4. Continue to operate the deer management program in conjunction with and the Environmental Quality Board as well as provide animal control services.
5. Continue coordination of protection by conducting quarterly meetings with Fire, EMS and Police, as well as to continue cooperative efforts between Planning and emergency services for plan reviews and commercial inspections including joint interdepartmental training for emergencies and sharing of technology resources amongst departments such as the Geographic Information System.
6. Purchase two replacement police vehicles, DUI task force equipment, a replacement fire engine and Advance Life Support vehicle.
7. Purchase adequate equipment for the firefighters to maintain a safe operation, including 3 sets of turnout gear and supply & attack hose. In addition provide facility support through roof replacement at Fire Station 1 & a new copier.
8. Continue funding of Senior Citizen Subscriptions to the Ambulance Service to reflect the increased subscription rate.
9. Hire an additional planner and commence implementation of the recently adopted comprehensive plan by commencing preparation of a new Zoning Ordinance, utilizing consultants as needed.
10. Examine the Traffic Impact Fee projects to determine how to most effectively proceed with significant transportation projects.
11. Provide inspection programs for construction through use of building inspectors, fire inspectors, stormwater facility inspections and sewer inspections.

PUBLIC WORKS

The Township maintains a 108.5 mile road network, storm sewers, storm water management facilities and numerous buildings and structures. Health and safety functions are primarily provided through authorities and private contractors. The Township government must be active in these functions to assure that the community has a healthy environment. The objectives in 2014 are:

1. Promote the participative nature of our residents by providing a recycling program, 5 fall and 2 spring leaf and 24 year round brush collection pick-ups, an electronic device drop off program; continue a volunteer landscaping program and the purchase of a cardboard compactor. The Township will seek grants for implementation of a cardboard compacting program and increased curb side recycling through larger wheeled containers.

2. A well maintained road system is key to the safety of residents as well as for the efficient operation of businesses, emergency services and school busing. The increased level of resurfacing will ensure we do not fall behind in maintenance. The Valley Brook/Route 19 intersection is expected to be completed in August 2014, Township funding was made in 2010. Also fund a replacement controller for the Waterdam/Route 19 traffic signal.
3. Install a new water line to better serve the public works facility as well as replace the salt shed roof. Planning for the future needs a design will be prepared for a new storage facility to be constructed in 2015.
4. Address stormwater issues proactively by renovating three stormwater detention ponds, continuing year 4 of a 10 year storm sewer replacement program for aging corrugated metal pipe.
5. Purchase four replacement vehicles and a new compact track loader with trailer.

CULTURE AND RECREATION

The Township provides a well-rounded variety of recreation programs and facilities; it also provides complete Library services and operates and programs multiple cable television channels. The objectives in 2014 include:

1. Continue to provide multiple opportunities for involvement of residents by recruiting over 250 volunteers to assist in recreation, library and cable programming.
2. Maintain a close cooperation with the school district by sharing of recreation facilities and scheduling, coordinating library offerings and an outreach coordinator with the school curriculum and operating a cable studio at the high school, with significant capital equipment to improve studio capabilities
3. Continue to provide a wide variety of programs for all interests including 4 summer concerts, increased CRC programming and increased usage of electronic books through the Library. Continued offering of the Silver Sneakers Program will provide affordable programs for the wellness of seniors.
4. Plan for the future needs of our continuing growth in population by developing a long range recreation plan while still maintaining facilities by paving a section of Arrowhead Trail, replacing the playground at Rees Park, replacing the Hofbauer Field Fence, installing new lighting in the CRC gymnasium, resurfacing the 5 hard surface "DecoTurf" courts and installing a carpet in the Tennis Center.

5. Address cultural needs by contracting designs for a new amphitheater at Peterswood Park and for the preservation of the original Bower Hill School house recently acquired by the Township.
6. Employ an associate library director to improve ability to serve the public and for long range transition planning.

Financial Operations

Accounting and Budgeting

In developing and evaluating the Township's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurances regarding:

1. The safeguarding of assets against loss from unauthorized uses or disposition.
2. Reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

1. The cost of the control should not exceed the benefits likely to be derived.
2. The evaluation of costs and benefits requires estimates and judgment by management.

All internal control evaluations occur within the above framework. We believe the Township's internal accounting controls adequately safeguard assets and provide reasonable assurance in proper recording of financial transactions.

In addition, the government maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the government's governing body. Activities of the General Fund, Special Revenue Funds and the Capital Project Fund are included in the annual appropriated budget. The level of budgetary control is established by function within an individual fund. Budgetary control is that level in which expenditures cannot legally exceed the appropriated amount.

LONG TERM FINANCIAL PLANNING AND MAJOR INITIATIVES

It is the stated goal of the Township to maintain a fund balance equal to or in excess of 15% of revenues. Revenues associated with governmental funds in 2013 equaled \$15,798,325. The fund balances as of December 31, 2013 greatly exceeded the target of \$2,369,749. The year-end fund balance totaled \$10,610,494. Of this amount, \$5,357,021 was unassigned.

The Peters Township Home Rule Charter required Peters Township Council to annually adopt a five-year Capital Improvement Plan. The Charter requires that the Capital Improvement Plan include:

1. A simple, clear, general summary of the detailed contents of the program.
2. The capital improvements pending or proposed for the next fiscal year, together with the estimated cost of each improvement and the method of financing it.
3. The capital program proposed for the next four years following, together with the estimated cost of each improvement and the proposed method of financing it.
4. The estimated annual cost of operating and maintaining the facilities to be constructed or acquired.

This Capital Improvement Plan is annually developed, adopted, and published in conjunction with the Township's annual operating budget. The intent of the plan is to ensure that not only facilities, equipment and infrastructure are well maintained, but also that the cost associated with these improvements is financed in a systematic and sound fashion.

Projects incorporated into the plan are derived from a number of sources. In some cases, projects are initially identified within studies commissioned by the Township. These studies include:

- Comprehensive Land Use Plan
- Comprehensive Traffic Study
- Comprehensive Recreation Plan
- Comprehensive Study of Recreational Fields
- Peterswood Master Plan
- Peters Lake Park Master Plan
- Stormwater Management Plan
- Management Study of Fire Department Services

Capital Improvement Projects are proposed and advocated by standing advisory committees which are provided for in the Home Rule Charter or the Peters Township Administrative Code. In addition, potential capital improvement projects are submitted by the Township's department heads.

The 2014-2018 Capital Improvement Plan anticipates the expenditure of \$24,234,879 over the next five years based on the following annual expenditure of funds:

2014	\$ 3,846,135
2015	\$ 8,012,869
2016	\$ 4,038,000
2017	\$ 6,081,875
2018	\$ 2,256,000

Of this amount, \$1,354,645 is designated for the acquisition or replacement of vehicles. The remaining expenditures are related to improvements to facilities and infrastructure. A significant portion of the Capital Improvement Plan is devoted to road improvements. The cost of proposed road and storm sewer improvements contained in the plan total \$8,981,000.

Projects contained in the 2013-2017 Capital Improvement Plan will be financed through the expenditure of excess current funds, capital lease, grants and fees. The Township received block grant funding from the state of Pennsylvania under the Liquid Fuels Program, the Local Share Program, and the Natural Gas Impact Fee Program. These funds are devoted to financing capital improvements. In addition, the Township levies a Traffic Impact Fee on all new developments. These funds are earmarked to finance road improvement projects. The Township does not anticipate issuing any long-term debt in the next five years.

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for excellence in financial reporting to the government for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2012. This was the eighteenth consecutive year that Peters Township has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

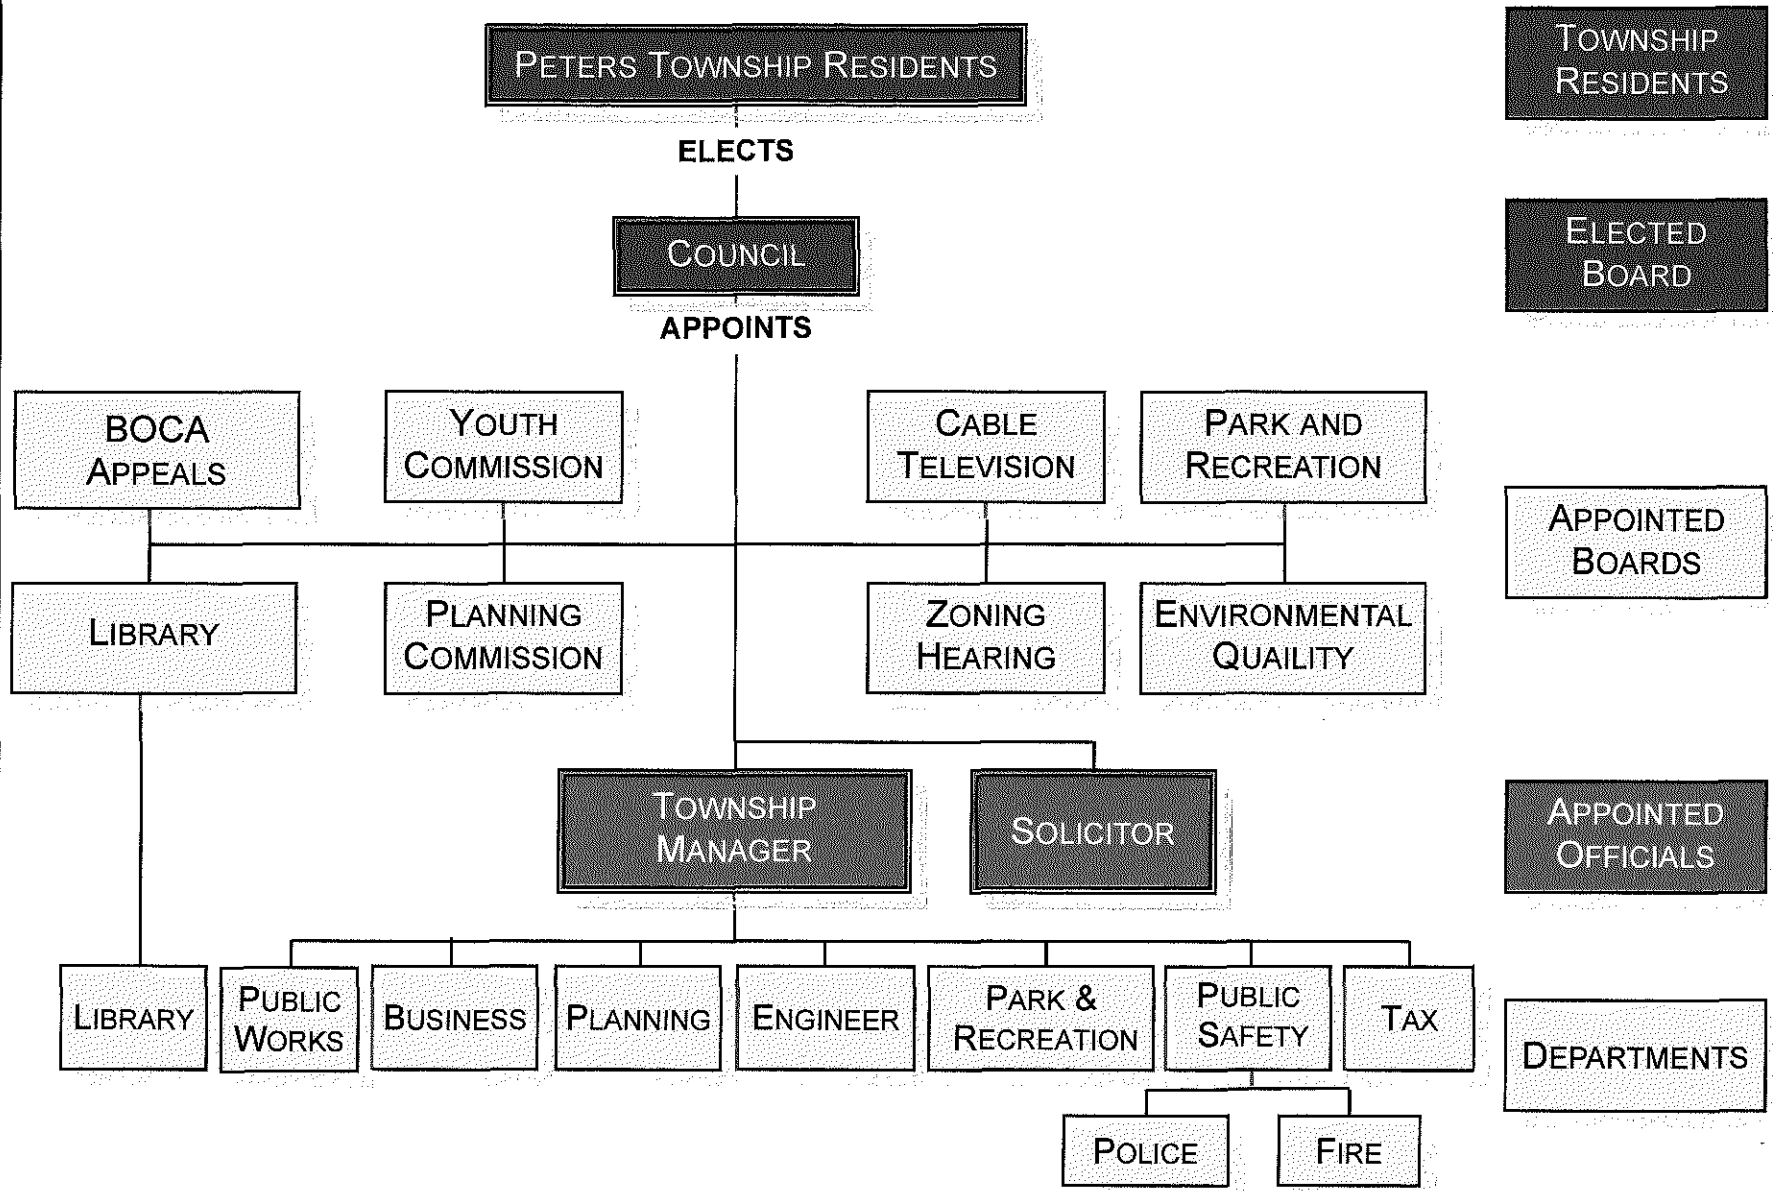

The production of this report was made possible through the efforts of a variety of individuals. The work and cooperation of the Township's administration staff, particularly the Assistant Township Manager, Paul F. Lauer, was instrumental in the completion of this report. I also wish to acknowledge the efforts of Council for its support and encouragement. As in other endeavors, Council has committed itself to insuring that the financial operations of the Township are conducted in a progressive and responsive manner.

Respectfully submitted,

Independent Auditor's Report

Members of Council
Peters Township
McMurray, Pennsylvania

Dear Members:

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Peters Township, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Peters Township, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, in 2013, the Township adopted the provisions of Governmental Accounting Standards Board Statement No. 65, "Items Previously Reported as Assets and Liabilities". Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, pension and other post-employment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Peters Township's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling

such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Peters Township's comprehensive annual financial report presents a narrative overview and analysis of the Township's financial performance for the fiscal year ended December 31, 2013. Please read this management and discussion in conjunction with the preceding transmittal letter and the accompanying financial statements and notes which follow in order to obtain a thorough understanding of the Township's financial condition as of December 31, 2013.

FINANCIAL HIGHLIGHTS

- The Township maintained the property tax rate at 13 mills.
- Peters Township's net position increased by \$2,073,378 from \$32,643,736 to \$34,717,114. This represents an increase of 6.4%.
- The unrestricted net position of Peters Township as of December 31, 2012 was \$6,290,105. As of December 31, 2013 the unrestricted net position of the Township was \$7,826,925.
- In 2012 Standard and Poor's awarded Peters Township a bond rating of AA+.
- The net outstanding debt decreased by \$25,000 from \$12,370,000 in 2012 to \$12,345,000 in 2013.
- Based on the Township's population estimate for 2012 of 23,000 the per capita debt as of December 31, 2013 is \$537. This is down from \$544 in 2012.
- The Fund Balance for the General Fund as of December 31, 2013 increased by \$1,524,006 from \$4,418,734 to \$5,942,740.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis section of the comprehensive annual financial report is intended as an introduction to Peters Township's basic financial statements. There are three components to the Township's financial statements. These are: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information designed to enhance the reader's understanding of the Township's finances.

Government-wide financial statements are intended to provide readers with a broad overview of Peters Township's finances. There are two government-wide financial statements presented in this report.

The first is the statement of net position. The statement of net position presents information on all of Peters Township's assets and liabilities. The difference between the Township's assets and liabilities is shown as the Township's net assets. Increases or decreases in net assets are financial indicators that when tracked over time can be used as a measure of the Township's financial condition.

The second government-wide financial statement is the statement of activities. This statement shows information on how the Township's net position have changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the actual cash flow. Revenues and expenses are reported in the statement for some items that will result in cash flows at some future date. For example, taxes that are levied but yet to be collected or sick days accrued but not yet used.

It is the accepted practice in the government-wide financial statements to distinguish governmental activities from business-type activities. Governmental activities are those functions of the Township that are principally supported by tax dollars and intergovernmental revenues. Governmental activities commonly include services such as police, fire, public works, planning, recreation, and administration. Business-type activities are those that are funded through user fees and charges. These would include such municipal services such as solid waste collection, sewage treatment, public water, or other municipally owned utilities. Peters Township does provide solid waste collection and disposal under contract to a third party. The government-wide financial statements therefore include information both on governmental activities and business-type activities.

The government-wide financial statements are required to include financial information not only on the primary governmental unit but also information for any other component unit for which the primary governmental unit is financially responsible. An example of a component unit of a Township (the primary governmental unit) would be a sewer authority where the Township sets user rates and guarantees the authority's bonds. Peters Township (the primary governmental unit) is not financially responsible for other organizations and therefore information on component units is not incorporated into this report.

The fund financial statements provide detailed information about the Township's funds as opposed to the Township as a whole. A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. Certain funds are required to exist to comply with requirements of the Commonwealth of Pennsylvania. The funds used by Peters Township are divided into three categories. They are governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, the governmental fund statements focus on near term financial activities. Governmental fund statements report information on revenues and expenditures throughout the year as well as the balances of available resources at the year's end. This information allows the reader to evaluate the Township's short-term financial activities.

By viewing information contained in the government-wide financial statements in conjunction with that contained in the governmental fund states the reader can appreciate the impact near term financial activities has on the Township's long-term financial condition. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Peters Township maintains eight individual governmental funds. These include:

General Fund
Cable Television Fund
Capital Projects Fund
Highway Aid Fund
Library Fund
Series of 2010 Debt Service Fund
Series of 2012 Debt Service Fund
Series of 2013 Debt Service Fund

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the general fund, the cable television fund and the capital projects fund. These three funds are considered major funds. Information on the non-major funds including the highway aid fund, the library fund, and debt service funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the form of combining statements.

Peters Township annually adopts budgets for all of the governmental funds. A statement comparing revenues and expenditures to the budget is included for all governmental funds.

Proprietary funds are used to account for the Township's activities that are similar to a business operation in the private sector. For proprietary funds a significant portion of the funding is provided from user charges. The Peters Township Solid Waste Services Fund was created in 2006 to account for the financial activity associated with the collection and disposal of solid waste and recyclables. This fund is a proprietary fund. Accounting for this fund is done on a similar basis as the accounting for a business activity.

Fiduciary funds are used to account for resources held for the benefit of parties other than the Township. Fiduciary funds are not reflected in the government-wide financial statements because the resources contained in these funds are not available to support the programs of Peters Township. Peters Township maintains two fiduciary funds. These include:

Police Pension Fund
Employees' Pension Fund

The notes to the financial statements provide additional information essential for a reader to develop a full understating of the information provided in the government-wide and fund financial statements.

In addition to the basic financial statements and the accompanying notes the report also presents certain required supplementary information. The required supplementary information in Peters Township's comprehensive financial report provides the reader information concerning the Township's progress toward funding its pension obligation for the police pension plan, other post-employment benefits and the budgetary comparison schedules.

The combining statements and schedules referred to earlier in connection with non major governmental fund are presented immediately following the required supplementary information.

Infrastructure assets:

At December 31, 2013, the Peters Township's total assets are \$48,688,485. Of this amount, \$36,662,262 is accounted for as capital assets. The total assets as of December 31, 2012 were \$47,219,507.

Historically, infrastructure (roads, sewers, etc) have not been reported or depreciated in governmental financial statements. GASB Statement #34 requires that all capital assets, including infrastructure, be valued and reported within the governmental activities column of the government-wide financial statements. Prospective reporting of infrastructure is allowed under GASB statement #34 for smaller municipalities. Peters Township has chosen to report infrastructure on a prospective basis and began doing so in 2004. As a result, investment in capital assets net of related debt stands at \$24,679,541 as of December 31, 2013.

The following presents the Township's change in net assets for the fiscal years ended December 31, 2013 and December 31, 2012

Governmental Activities

Revenue Sources

In 2013 72.7% of Peters Township's total government-wide revenues of \$16,154,598 were derived from taxes. This compares with 69.8% in 2012. The Township collected \$11,736,730 in taxes. Of the taxes levied Earned Income Tax and the Real Estate Tax are the most significant.

The Earned Income Tax is a one-half percent (.5%) tax levied against the wages earned by Township residents. In 2013, Earned Income Tax accounted for \$5,469,004 or 46.6% of the taxes levied for general government functions. Earned Income Tax revenues collected in 2013 were 7.7% higher than that collected in 2012.

The Real Estate Tax is a tax levied against the assessed valuation of real estate property located in the Township. The assessed valuation of all property in 2013 was \$336,832,664. This represents an increase in assessed property value of approximately \$6,903,737. This increase reflects the value of new construction and additions completed in 2013. The last reassessment of properties in Peters Township occurred in 1981. The court ordered reassessment of properties is underway. Real Estate Tax receipts totaled \$4,278,658 or 36.5% of tax revenue.

The Real Estate Transfer Tax is a tax levied on the value of all real estate transferred in Peters Township. The Township levy is one percent (1%) of the value of property transferred. This tax is collected by the Washington County Recorder of Deeds, who charges a two percent (2%) collection fee. In 2013 revenues from the Deed Transfer Tax decreased by \$65,093 from the prior year to \$1,641,884.

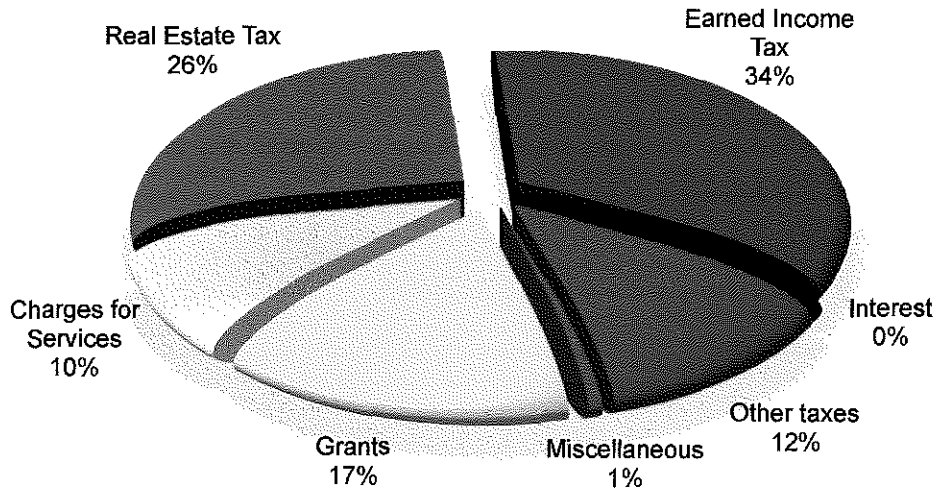

In 2013 the Township collected \$4,417,868 in revenue from non tax sources. This represents 27.3% of the total revenue collected. Charges for services equaled \$1,535,777 or 34.8% of all non tax revenue. It is the Township's policy, whenever possible, to charge fees for specialized services. The Township's goal is to structure these fees in a manner so as to cover the total cost of providing the related service. Zoning and building permit fees offset the cost of municipal services associated with development activity. The cost of recreation activities are largely covered by program fees.

Grants received by Peters Township in 2013 totaled \$2,708,028 and represent 61.3% of the Township non tax revenue. An important ongoing source of grant funds for Peters Township is the Pennsylvania State Liquid Fuel Program. Under this program, the state provides individual municipalities with a portion of the monies derived through the imposition of a statewide gasoline tax. In 2012 Peters Township also began receiving a grant allocation under the Natural Gas Impact Fee program.

The Township also receives funds under the Foreign Fire and Foreign Casualty Insurance Programs. Funds received under the Foreign Fire Fund Program are mandated by the state of Pennsylvania to be turned over to the Peters Township Volunteer Fire Company Relief Association. These funds primarily are utilized by the Relief Association to acquire and maintain firefighting equipment and personal protection gear. The Foreign Casualty Insurance Program provides funds to help offset employee pension costs. The amount received does not cover all of the costs associated with employee pensions. The difference is made up by the General Fund and employees' contributions.

The following chart graphically depicts the government-wide sources of the governmental activities revenues for the fiscal year ended December 31, 2013:

Sources of Revenues
Total Revenues: \$16,154,598

Program Expenses

Total program expenses in 2013 were \$14,117,944. This represents an increase of only \$16,240 or less than .1% over 2012.

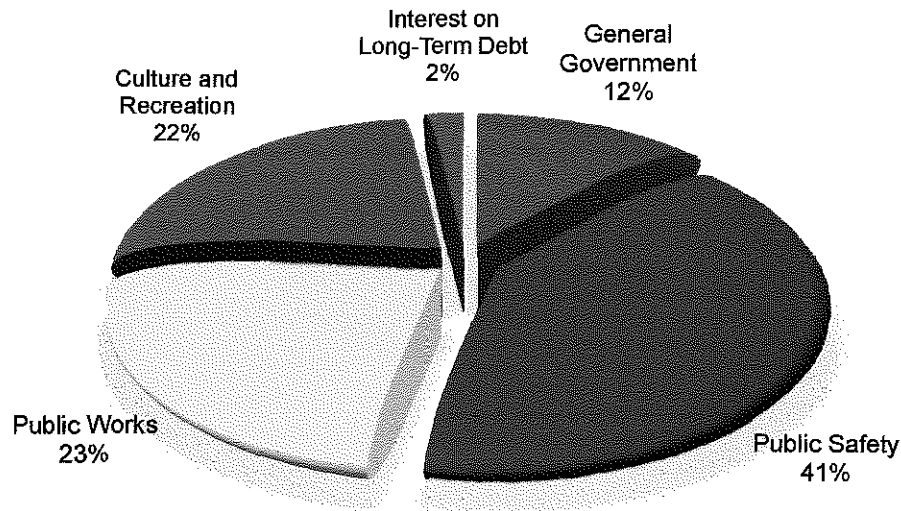

In 2013 expenditures associated with public safety account for \$5,814,163 or 41.2% of all expenses. Programs contained in the Public Safety category include Police Services, Fire Services, Planning, Emergency Medical Services, Animal Control, Zoning Building Inspection and Emergency Medical Services. In 2014 the Township negotiated a new labor contract with the fire fighters which commenced on January 1, 2014 and extends to December 31, 2018

Public Works expenditures in 2013 totaled \$3,253,136 or 23.0% of total expenses. A significant portion of this amount is associated with capital improvements including the resurfacing of roadways, construction of a trail bridge over Sugar Camp Road, and the rehabilitation of storm sewers.

Programs included under the category of Culture and Recreation are the Peters Township Library, Parks and Recreation, and Peters Township Community Television. In 2013, expenditures for Culture and Recreation equaled \$3,049,562 or 21.6% of the expenses.

The following chart graphically depicts the government-wide program expenses for the fiscal year ended December 31, 2013:

Program Expenses
Total Expenditures: \$14,117,944

Net Program Expenses/Revenues:

As one might expect the basic services of Peters Township are primarily financed through general revenues. To the extent one can identify a specific beneficiary of a municipal service, users fees are charged to offset the cost of the service rendered. Examples of the municipal services where it is possible to establish this correlation include services such as recreation programs and building permits.

In 2013 public safety expenses required the most general revenue for support, needing \$4,998,983. Culture and recreation required \$1,997,421 in general revenue support while public works activities required \$1,311,963.

Business-Type Activities

Revenue Sources

To finance the cost of collecting and disposing of solid waste and recyclables the Township charges each homeowner a flat fee that is collected quarterly. In 2013 fees for solid waste and recycling totaled \$1,515,746. In 2013 fees for garbage service were increased so as to cover 100% of the cost associated with the collection and disposal of solid waste and recyclables.

Program Expenses

The flat fee charged to the Township by a third party contractor determines the expense related to the collection and disposal of solid waste and recyclables. This service costs \$1,479,044 in 2013. The collection and disposal of solid waste and recyclables is performed under contract with Waste Management. The Township through the South Hills Council of Government entered into a contract with Waste Management in 2014. This contract expires at the end of 2019.

Net Program Expenses/Revenues

Program expenses are intended to be fully offset by revenues generated by user charges. In 2013 charges for services off set all associated expenses.

FINANCIAL ANALYSIS OF THE MUNICIPALITY'S FUNDS

As Peters Township completed the year, its governmental funds reported a combined fund balance of \$10,610,494 an increase of \$458,690 compared to the previous year. This increase in fund balance is largely attributable to tax receipts and franchise fees in excess of that which was anticipated. The Township continues to maintain fund balances well in excess of established standards.

Fund balance is divided into one of five classifications. These are:

- Nonspendable fund balance — amounts that are not in a spendable form such as inventory or are required to be maintained intact
- Restricted fund balance — amounts constrained to specific purposes by their providers through constitutional provisions or by enabling legislation
- Committed fund balance — amounts constrained to specific purposes by Peters Township Council
- Assigned fund balance — amounts a government intends to use for a specific purpose. The assignment can be expressed Council or the Township Manager
- Unassigned fund balance — amounts that are available for any purpose; these amounts are reported only in the general fund.

Of the total balance \$2,210,648 is restricted and must be used the completion of capital and highway projects. Peters Township Council has committed \$2,597,495 for specific purposes including \$1,448,014 in the Cable Television Fund for public access television and communications. \$442,261 of the fund balance is classified as assigned. This includes \$375,764 which is assigned the Library Fund for library operations. The nonexpendable fund balance is \$3,069. The remaining \$5,357,021 is unassigned, meaning it is available to meet the Township's current and future needs.

In the Peters Township General Fund, the fund balance increased by \$1,524,006 from \$4,418,734 to \$5,942,740.

The fund balance in the Peters Township Capital Projects Fund decreased by \$1,352,222 from \$4,196,188 to \$2,843,966. This is largely attributed to completion of capital projects associated with the proceeds from the 2010 bond issue.

General Fund Budgetary Highlights

In 2013 general fund revenues exceed budgeted revenues by \$764,253. Total revenues in 2013 were budgeted at \$12,628,790 while actual revenues equaled \$13,393,043. The variance is largely attributable to greater than expected Earned Income Tax revenues, as well as, higher than anticipated Real Estate Transfer Tax revenues.

General fund expenditures were \$721,950 less than the final budget. The final budget for total expenditures in 2013 was \$10,855,137 while actual expenditures equaled \$10,133,187. The

variance between actual and budgeted expenditures was the result of a continued concerted effort across the board to control spending.

Other Major Funds

Capital Projects Fund

The capital projects fund accounts for funds provided by Peters Township, most frequently from transfers from the General Fund or bond proceeds. The most significant capital expenditure in 2013 related to highway maintenance, storm sewer maintenance, and building improvements.

Cable Television Fund

Peters Township has entered into a franchise agreements for cable services with Comcast Communications and Verizon. The Cable Television Fund accounts for funds derived from a 5% franchise fee charged the Township's cable television provider. Peters Township has chosen to segregate these funds and to earmark them for communication, public access operation and cable franchise administration.

Trust and Agency Operations

Pension Trust Fund

The Township maintains two pension funds related to the activities associated with the Peters Township Police and the Peters Township Employee Pension Systems. As a result of a net appreciation in the fair value of the investments in 2013 both pension funds experienced a modest increase in the value of assets held. Because the Peters Township Employee Pension is a defined contribution plan the amount of the Township's future contribution will be unaffected. The Peters Township Police Pension Plan however is a defined benefit plan. The impact of the net appreciation in the fair value of investments held in this plan on future Township contribution has yet to be ascertained.

Bond Ratings

The Township maintains a strong investment bond rating of Aa+ from Standard and Poor's bond rating service. This rating was issued in 2012. More detailed information about the Township's general long-term debt activity can be found in the notes to the financial statements.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$53,419,384, and the accumulated depreciation is \$16,789,018. 36,630,366

Property taxes receivable and other long-term assets will be collected in the future but are not available to pay for current period expenditures and, therefore are reported as unavailable revenue in the funds. 71,209

The negative pension benefit obligation (asset) is considered an asset in the government-wide financial statements. 31,896

Certain charges on bonds issued and refunded are capitalized and amortized over the life of the bonds in the statement of net position. 561,220

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Total Net Change in Fund Balances - Governmental Funds \$ 458,690

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation in the period.

Depreciation Expense	\$(1,878,142)	
Capital Outlays	2,522,598	
Net Book Value of Assets Retired	<u>(2,254)</u>	642,202

Donations of capital assets increases net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources. 354,172

Because some property taxes and special assessments do not provide current financial resources, they are not reported as revenues in the funds. 18,983

Repayment of bond principal and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 745,483

The Township's bonded debt was also reduced by a current refunding of debt. Resources of (\$10,012,682) was paid to the escrow agent for the current refunding of outstanding bonds (\$9,360,000). The difference between those amounts will be amortized as an adjustment of interest expense in the statement of activities over the remaining life of the new debt. 10,012,682

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balances. In the government-wide financial statements, however, issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. The proceeds were: (10,000,000)

In the statement of activities, certain operating expenses - compensated absences (sick pay and vacations) and other post-employment benefit obligations (OPEB) - are measured by the amounts earned during the year. Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Peters Township
Notes to Financial Statements
December 31, 2013

Note 1 - Summary of Significant Accounting Policies

Peters Township was incorporated in 1781 under the provisions of Article 9, Section 1 of the Constitution of the Commonwealth of Pennsylvania, as amended. Peters Township operates under the Home Rule Charter with a Council/Manager form of government.

A. Description of Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Township. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported as separate columns in the fund financial statements.

B. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Peters Township
Notes to Financial Statements
December 31, 2013

Note 1 - Summary of Significant Accounting Policies (Cont'd)

C. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

The *general fund* is the Township's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The *cable television fund*, a special revenue fund, is used to account for revenues received under the cable television franchise agreement and related expenditures of operating the public access channel.

The *capital projects fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities or equipment.

The Township reports the following major proprietary fund:

The *garbage fund* accounts for the revenues and other costs and expenses providing garbage collection to residents during the year.

Additionally, the Township reports the following fund type:

The *pension trust fund(s)* account for the activities of the Police and Non-Uniform Pension Plans, which accumulate resources for pension benefit payments to covered employees.

The Township also reports as nonmajor governmental funds the following:

Special revenue funds focus on revenues that are restricted or committed to specific purposes. Their revenues serve as the foundation for those funds. The Highway Aid and Library Funds are considered special revenue funds.

Debt service funds account for the resources accumulated and payments made for principal and interest on long-term general obligation bonds of governmental funds.

Peters Township
Notes to Financial Statements
December 31, 2013

Note 1 - Summary of Significant Accounting Policies (Cont'd)

C. Basis of Presentation - Fund Financial Statements (Cont'd)

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of any uncollectible amounts, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes levied but collected beyond 60 days after year end are recorded as unavailable revenues to be recognized as revenue when the taxes are collected. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital assets

Peters Township
Notes to Financial Statements
December 31, 2013

Note 1 - Summary of Significant Accounting Policies (Cont'd)

D. Measurement Focus and Basis of Accounting (Cont'd)

acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, intergovernmental revenues, investment income, rent and certain miscellaneous revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. In applying the susceptible to accrual concept to intergovernmental revenues (state and federal sources), the legal and contractual requirements of the individual programs are used as guidance. There are however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Township; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditures. All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary funds distinguish *operating revenues* and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Township's enterprise funds are charges to residents for collection of garbage and recyclables. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Cash and Cash Equivalents

The Township's policy is to maintain cash balances in interest-bearing accounts such as money market or flex funds. Investments are stated at fair value. Fair value is based on quoted market prices. For the purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F. Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Expenditures may not legally exceed the budgeted appropriation at the function level. As a matter of policy, supplemental appropriations are requested whenever expenditures exceed appropriations at the function level. Only Council may take action to amend appropriations. The budgetary procedures utilized by Peters Township are prescribed in the Township's Home Rule Charter. Those procedures are as follows:

1. Sixty days prior to the close of the fiscal year (December 31), the Township Manager is required to submit to Council a proposed budget.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

F. Budgets (Cont'd)

2. Upon submission to Council, the proposed budget is considered public record and, as such, is available to the public for their review.
3. Council holds a public hearing to obtain input from Township residents on the proposed budget. This hearing must be held no earlier than two weeks after the submittal of the proposed budget to Council, but no later than two weeks prior to the anticipated adoption date.
4. No sooner than two weeks after the public hearing, but before the close of the fiscal year (December 31), Council adopts the budget.
5. Budgets are adopted as on-line item basis by departments. At any time during the year, the Township Manager may transfer monies among programs within a function. Appropriation transfers between functions require Council action.
6. Appropriations authorized by the budget or any addendum cannot exceed anticipated income.
7. Budgets are legally adopted for the general fund, all special revenue funds, capital projects funds, and the debt service funds on a basis consistent with generally accepted accounting principles.
8. All appropriations lapse at the end of each fiscal year (December 31).
9. There were no supplemental budgetary appropriations made during the year ended December 31, 2013.

G. Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

Inventories in governmental funds are stated at cost by the first-in, first-out method. The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, an estimated value of inventories is reported as an asset in the general fund, if considered material. There were no material inventory balances as of December 31, 2013.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

I. Capital Assets

Capital assets, which include property, plant, equipment and land improvements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Township as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In accordance with GASB Statement No. 34, infrastructure has been prospectively capitalized, beginning January 1, 2004. The Township, a phase-3 government under GASBS No. 34 implementation guidelines, is not required and has not elected retroactive reporting of infrastructure assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Building Improvement	20-40
Land Improvements	20
Furniture	5
Vehicles	5-15
Equipment	5-15
Computers	3
Infrastructure	20-40

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

J. Deferred Outflows/Inflows of Resources (Cont'd)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

K. Compensated Absences

The Township's policies regarding vacation time under various contracts, provide for employees to accumulate sick days which they are paid for upon retirement or termination of service. The amount the employee is compensated and the number of days varies based on their contract and their years of service. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. In the fund financial statements, governmental funds report a compensated absence liability only if they have matured; for example, as a result of employee resignations and retirements.

L. Government-Wide and Proprietary Fund Net Position

Net position is divided into three components:

Invested in capital assets, net of related debt - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Governmental - Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the Township classifies governmental funds balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Peters Township
Notes to Financial Statements
December 31, 2013

Note 1 - Summary of Significant Accounting Policies (Cont'd)

L. Government-Wide and Proprietary Fund Net Position (Cont'd)

Governmental - Fund Balance (Cont'd)

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payment and includes a legally enforceable requirement on the use of these funds.

Committed - the portion of fund balance that can only be used for specific purposes determined by a formal action of the Township's highest level of authority. The Township Council is the highest level of decision-making authority that can, by the passage of a motion, commit fund balances. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially constrain the money, which is the passage of a motion.

Assigned - reflects the Township's intent to use the money for a specific purpose but is not considered restricted or committed. The Township Council has, by adoption of policy, authorized the Township manager or assistant manager to assign fund balance.

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

The Township's informal policy is that it considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. It also considers committed amounts to be spent first when an expenditure is incurred for purposes for which both committed and unassigned fund balance could be used.

The purposes of the nonspendable, restricted, committed and assigned fund balances as of December 31, 2013, are as follows:

1. The nonspendable fund balance in the general fund in the amount of \$3,069 is for prepaid insurance.
2. The restricted fund balance in the capital projects fund of \$2,210,638 is for future capital construction projects and major capital purchases.
3. The restricted fund balance in the nonmajor funds of \$10 is for highway maintenance, rebuilding and construction.

4. The committed fund balance in the general fund is for other post-employment benefits in the amount of \$516,153; in the cable television fund for the public access channel costs of operation in the amount of \$1,448,014; and in the capital projects fund for future capital projects in the amount of \$633,328 which represents the funds received from the local gaming impact fees allocated.
5. The assigned fund balance in the general fund of \$66,497 is for public safety and parks.
6. The assigned fund balance in nonmajor funds of \$375,764 is for the public library.

Note 2 - Restatement of Beginning Net Position

Peters Township adopted GASB Statement No. 65 *Items Previously Reported as Assets and Liabilities* as of January 1, 2013 and applied the statement retroactively. Beginning net position in the government-wide financial statements was restated as of January 1, 2013 as a result of the effects of applying this new statement and are summarized below.

Net Position, December 31, 2012 (previously reported)	\$32,708,582
Prior to implementation of GASBS No. 65 bond issuance costs were deferred and amortized over the life of the bonds. Under the new statement, bond issuance costs are expensed when incurred. The result is a decrease in beginning net position for unamortized bond issuance costs.	<u>(159,158)</u>
Restated Net Position, January 1, 2013	<u>\$32,549,424</u>

Note 3 - Deposits and Investments

Pennsylvania statutes provide for investment of governmental and proprietary funds into certain authorized investment types including U. S. Treasury bills, other short-term U. S. and Pennsylvania government obligations, and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental and proprietary funds, fiduciary fund investments may also be made in corporate stocks and bonds, real estate and other investments consistent with sound business practice.

Peters Township
Notes to Financial Statements
December 31, 2013

Note 3 - Deposits and Investments (Cont'd)

The deposit and investment policy of the Township adheres to state statutes and prudent business practice.

The deposits and investments of the fiduciary funds are administered by trustees and are held separately from those of other municipal funds. Investments are reported at fair value. Fair value is based on quoted market prices. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value. There were no deposit or investment transactions during the year that were in violation of either state statutes or the policy of the Township.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The Township does not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of December 31, 2013, \$3,047,079 of the Township's bank balance of \$3,797,079 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging	
Bank's Agent not in the Township's Name	<u>\$3,047,079</u>

As of December 31, 2013, the Township had the following investments:

Investments	Maturity Date	Fair Value
PLGIT	N/A	\$ 3,575,412
PA Invest	60 days or less	1,922,043

Total Investments		<u>\$19,958,888</u>

**Peters Township
Notes to Financial Statements
December 31, 2013**

Note 3 - Deposits and Investments (Cont'd)

The investments in the Mutual Funds, Principal Money Market Fund and the Guaranteed Interest Accounts are reported in the Township's fiduciary funds.

Interest Rate Risk - The Township does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The money market funds maintain an average maturity that is less than sixty days.

Credit Risks - Pennsylvania statutes authorize the type of investments allowed and are described above. The Township has no investment policy that would further limit its investments choices. The Township's investments in PA Invest, the Pennsylvania Local Government Investment Trust (PLGIT) and the PNC Government Money Market Fund were rated AAAM by Standard & Poor's. The Principal Money Market Fund and the Principal Guaranteed Interest Accounts held in the fiduciary funds are not rated.

Concentration of Credit Risk - The Township places no limit on the amount it may invest in any one issue.

The Pennsylvania Local Government Investment Trust (PLGIT) was established as a common law trust, organized under laws of the Commonwealth of Pennsylvania and the provision of the Intergovernmental Cooperation Act. Shares of the Fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the Fund is to enable such governmental units to pool their available funds for investments. The Trust is governed by an elected board of trustees who are responsible for the overall management of the Trust. The trustees are elected from the several classes of local governments participating in the Trust. The Trust is audited annually by independent auditors. PLGIT is rated AAAM by Standard and Poor's.

PLGIT operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. PLGIT uses amortized cost to report net position to compute share prices. PLGIT maintains a net asset value of \$1 per share. Accordingly, the fair value of the position in PLGIT is the same as the value of the PLGIT shares.

Note 4 - Real Estate Taxes

The tax collector bills and collects real estate taxes on behalf of the Township based upon assessed values provided by the County. The Township's tax rate for all purposes in 2013 was 13 mills (\$13 per \$1,000 assessed valuation). The tax calendar for real estate taxes levied for 2013 is as follows:

Tax Levy Date	March 7, 2013
2% Discount Period	Through June 7, 2013
Face Payment Period	June 8, 2013 - August 7, 2013
10% Penalty Period	August 8, 2013 until Liened
Lien Filing Date	January 1, 2014

**Peters Township
Notes to Financial Statements
December 31, 2013**

Note 4 - Real Estate Taxes (Cont'd)

The amounts shown as delinquent real estate taxes receivable have not been recorded as revenue on the fund statements. These taxes are, however, recorded as unavailable revenues on the governmental fund balance sheet until they are received. The amounts reported for this receivable are reported on the balance sheet in the amount of \$47,851 along with other taxes receivable of \$1,008,824.

Note 5 - Due from Other Governments

Amounts due from other governments represent receivables for revenues earned by the Township. At December 31, 2013 the following amounts are due from other governmental units:

	Governmental Funds
State	\$ 2,109
School District	26,420
Other Local Governments	<u>4,522</u>

Note 7 - Interfund Balances

Interfund balances at December 31, 2013 were:

Fund	Interfund Receivable	Interfund Payable
General Fund	\$59,402	\$ -
Cable Television Fund	-	7,809
Capital Projects Fund	-	1,593
Enterprise Fund		
Garbage Fund	<u>-</u>	<u>50,000</u>
	<u>\$59,402</u>	<u>\$59,402</u>

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All the balances above are expected to be collected in the subsequent year.

Note 8 - Interfund Transfers

For the year ended December 31, 2013, interfund transfers consisted of the following:

<u>Transfer To</u>	<u>Transfer From</u>		
	General Fund	Cable Television Fund	Totals
Capital Projects Funds	\$ 84,611	\$146,970	\$ 231,581

	<u>\$1,735,850</u>	<u>\$146,970</u>	<u>\$1,882,820</u>

The general fund transfer to the capital projects fund in the amount of \$84,611 is to fund certain capital projects throughout the Township. The cable television fund transfer of \$146,970 to the capital projects fund was for capital purchases.

The general fund transfers to the nonmajor governmental funds in the amount of \$1,651,239 were comprised of \$760,000 to the library fund and is an annual transfer to subsidize the operations of the Township Library and \$891,239 to the debt service funds to pay the principal and interest due annually on the Township's general obligation bonds.

	<u>\$12,345,000</u>	<u>\$2,065,802</u>	<u>\$14,410,802</u>

On January 15, 2013, the Township issued \$10,000,000 Series 2013 bonds with interest rates from 0.40% to 2.27% to advance refund a portion of the outstanding 2010 bonds (\$9,360,000) with interest rates ranging from 2.70% - 4.10%. Net proceeds of \$10,012,682 (including premium of \$129,345 and payment of issuance costs) were used to advance refund the 2010 bonds.

As a result, the advance refunded 2010 bonds are considered defeased and the liability for those bonds have been removed as a liability in these financial statements.

The Township advance refunded the 2010 bonds to reduce its total debt service payments over fourteen years by \$1,051,662 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$978,000.

Note 10 - Capital Lease

D. Funded Status and Funding Progress

As of January 1, 2013, the most recent actuarial valuation date, the Plan was 82% funded. The actuarial accrued liability for benefits was \$9,735,128 and the actuarial value of assets was \$8,030,849, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,704,279. The covered payroll (annual payroll of active employees covered by the Plan) was \$1,848,666. The ratio of the UAAL to the covered payroll is 92%. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

E. Actuarial Methods and Assumptions

In the January 1, 2013 actuarial valuation, the most recent valuation completed, the entry age actuarial cost method was used. The actuarial assumptions included: 7.5% investment rate of return; projected salary increase of 4.75% annually; and an underlying inflation rate of 2.25%. The actuarial value of assets was determined using a four-year smoothing. The amortization method used is a level dollar with a nine year open amortization period.

Note 12 - Defined Contribution Pension Plans

Peters Township Municipal Employees

A. Plan Description

The Township sponsors and contributes to the Peters Township Municipal Employees Pension Plan which is a defined contribution plan. All full-time administrative employees not represented by a bargaining unit and full-time firefighters are covered by this Plan. The Plan's total membership as of December 31, 2013 is forty. Administrative costs of the Plan are funded by the general fund.

The Township is required to contribute for each employee who has 1,000 or more hours of service in the service period, 8.00% of the employee's annual pay. For members of the firefighters union, effective May 1, 2011, they can contribute up to the maximum allowable. The Township, for the firefighters union members only, has an obligation to match an employee's contribution up to 1% in 2011, 2% in 2012 and 3% each year after. Employees, except as noted above for firefighters, do not contribute to the Plan. Plan participants are 100% vested with five or more years of vesting service.

Benefits can start on the participants:

1. Normal retirement date - the first day of the month on or after the participant reaches age 65; or
2. Early retirement date - this day shall be on or after the date the participant has severance from employment and the date the participant meets the following requirements:
 - a. The date the participant reaches age 55;
 - b. Has completed 10 years of service with the employer.

Benefits paid can be in various forms at the option of the participant. The amount of the benefit depends on the amount contributed to the participant's account, earnings on investments of those contributions, and forfeitures of other participant's benefits that may be allocated to the participant's account.

The amount contributed by the Township to the Plan for the year ended December 31, 2013 was \$160,017 or 7.34% of wages. Unallocated forfeitures from participants no longer in the Plan and not fully vested are allocated among current participants. Township Council is responsible for establishing and/or amending the Plan provisions and contribution requirements.

B. Summary of Significant Accounting Policies

The financial statements of the Plan are included as a pension trust fund in this report. For additional information related to basis of accounting reported investment values see Notes 1D. and 3.

C. Concentrations

The Municipal Employees Pension Plan investments in mutual funds held by Principal Financial Group account for 96% of the total investments at December 31, 2013. The balance (4%) of the Plan's investments are in guaranteed interest accounts.

Road Department

Plan Description

The Township provides pension benefits for all of its full-time road department employees through a defined contribution plan, by participating in the Laborers' District Council of Western Pennsylvania Pension Fund for Local Union #1058 who administers the Plan.

Payments by the Township are calculated at the rate of \$2.50 for every hour worked by the road department employees. The total contribution required and made by the Township for the year ended December 31, 2013 was \$101,473 (11.89% of covered payroll).

Employees are eligible to participate from the date of employment.

Plan participants are all union employees for whom 300 hours of employment are credited in the fund for a single calendar year.

On and after January 1, 1987, the normal retirement benefit of an employee eligible for retirement and who applies, therefore, shall be a monthly amount equal to the sum of the following:

1. Fifteen dollars (\$15.00) multiplied by the sum of the employee's years of credited past service, if any; plus
2. Three and three-quarters percent (3.75%) of the total amount contributed for him after his most recent break in service, if any, through December 31, 1987; plus
3. Three percent (3.0%) of the total amount contributed for him from January 1, 1987.

The Local Union #1058 has the authority for establishing and amending Plan provisions, and the contribution rate is negotiated by the Township through the Union employee's contract requirements.

Note 14 - Post Employment Healthcare Plan

A. Plan Description

Peters Township administers a single-employer defined benefit healthcare plan ("the Supplemental Health Plan"). The plan provides medical, dental and vision for eligible Township police officers. The benefits provided are for the eligible retirees and their spouses through the Township group health insurance plan which covers both active and retired members. Benefit provisions are mostly established through negotiations between the Township and union representing the employees. No post-employment benefits are provided for non-uniform employees. The plan does not issue a publicly available financial report.

B. Funding Policy

The eligibility and the benefits are as follows:

Police Employees

Medical, Dental and Vision Eligibility	Retired from the police pension plan after age 50 and 25 years of service.
--	--

Death Benefit Eligibility	Termination from the police pension plan after 15 years of service.

Persons Covered

Coverage will include retiree, spouse and eligible dependents.

Benefits Provided

The Township will pay 102% of the charged premium for medical, dental and vision coverage for the retiree, spouse and dependents for the first year of retirement. For the next four years, the Township will pay 52% of the charged premiums. During the following five years, the Township will pay the actual cost of premiums up to \$200 per month. In addition, the Township self-funds the difference between the high deductible (\$1,500/\$3,000) and a \$250/\$500 deductible. After 10 years of retirement, medical, dental and vision benefits cease. A death benefit of \$2,000 is payable to the beneficiary of a participant who terminates after 15 years of service, with the benefit amount increasing by \$200 for each additional year of service, to a maximum of \$5,000.

Benefits Provider

Highmark High Deductible \$1,500/\$3,000 PPO Plan or PPO Blue Option 1 Plan (with retirees paying the difference in cost between the two if the Option 1 plan is elected) for medical coverage, United Concordia for dental coverage and Vision Benefits of America (VBA) for vision coverage, all administered through the Municipal Employers Insurance Trust (MEIT). The death benefit is currently self-insured. Effective January 1, 2013, medical coverage is a UPMC Health Plan PPO with a \$2,000 in-network deductible and \$3,000/\$6,000 out-of-network deductible.

Retiree Contributions

Retirees pay the charged premium in excess of the amount paid by the Township. For the second through fifth years of retirement, 48% of the charged premium is paid by the retiree. For years six through ten, premiums in excess of \$2,400 annually are paid by the retiree.

Public Works Employees

Medical, Dental and Vision Eligibility	Hired prior to May 1, 2012 and retired from the pension plan after age 62 with 15 years of service.
Persons Covered	Coverage will include retiree, spouse, and eligible dependents.
Benefits Provided	The Township will pay the charged premium for medical, dental, and vision coverage for the retiree, spouse, and eligible dependents, up to a maximum of \$337.38 per month for single coverage or a maximum of \$901.89 per month for other coverage, for a maximum of three years after retirement. After three years of retirement, medical, dental, and vision benefits cease.
Opt Out	At retirement, eligible participants may make an irrevocable election to receive payments equal to 50% of the maximum amounts outlined above, based on coverage level at retirement, in lieu of continued health coverage.
Benefits Provider	Highmark High Deductible 1500/3000 PPO Plan or PPO Blue Option 1 Plan (with retirees paying the difference in cost between the two if the Option 1 Plan is elected) for medical coverage, United Concordia for dental coverage, and Vision Benefits of America (VBA) for vision coverage, all administered through the Municipal Employers Insurance Trust (MEIT). Effective January 1, 2013, medical coverage is a UPMC Health Plan PPO with \$2,000 in-network deductible and \$3,000/\$6,000 out-of-network deductible.
Retiree Contributions	Retirees pay the charged premium in excess of the amount paid by the Township.

Non-Police, Non-Public Works Employees

No post-retirement benefits are provided for employees other than police officers and public works employees.

B. Funding Policy (Cont'd)

For the year ended December 31, 2013, the Township contributed \$10,646. Plan members receiving benefits contributed \$-0-. The plan is financed on a pay-as-you-go basis.

C. Annual OPEB Cost and Net OPEB Obligation

The Township's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (funding excess) over a period not to exceed thirty years. The following table shows the components of the Township's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the Township's net OPEB obligation.

Annual Required Contribution	\$ 97,864
Interest on Net OPEB Obligation	8,497
Adjustment to Annual Required Contribution	<u>(12,221)</u>
Annual OPEB Cost (Expense)	94,140
Contributions Made	<u>(49,615)</u>
Increase (Decrease) in OPEB Obligation	44,525
Net OPEB Obligation - Beginning of Year	<u>188,824</u>
Net OPEB Obligation - End of Year	<u>\$233,349</u>

The Township's OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the years ended December 31, 2013, 2012 and 2011, is as follows.

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/13	\$94,140	52.7%	\$233,349
12/31/12	95,117	47.9%	188,824
12/31/11	85,398	44.8%	139,298

Note 14 - Post Employment Healthcare Plan (Cont'd)

D. Funded Status and Funding Progress

As of January 1, 2012, the actuarial accrued liability for benefits was \$970,958, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$2,473,319 and the ratio of unfunded actuarial accrued liability to the covered payroll was 39.2%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Multi-year information will be presented in future years.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with long-term perspective of the calculations.

In the January 1, 2012 actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included an investment return of 4.5%, an annual healthcare cost trend rate of 5% annually and a 3% rate for dental/vision with no change over the period and no separate rate for inflation. The method used to determine the actuarial value of assets is not applicable since there are no plan assets. The unfunded actuarial accrued liability is being amortized using the level dollar method. The amortization period for the most recent actuarial valuation is twenty-seven years. The period is open.

Note 15 - Risk Management

Peters Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. The Township does participate in the Municipal Risk Management (MRM) program for the purchase of certain insurance policies. The MRM is comprised of a number of municipalities which have combined their purchasing power to receive more favorable rates from independent insurance companies. There is no transfer or pooling of risk among the members and each member purchases its own insurance policies from an independent company.

**Peters Township
Notes to Financial Statements

Note 15 - Risk Management (Cont'd)

The Township also purchases commercial insurance for its employee health and accident insurance coverage.

Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

Budget Comparison
December 31, 2013

Note 1 - Budgetary Information

Budgets are adopted on a basis consistent with U. S. generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund and cable television fund, a major special revenue fund. All annual appropriations lapse at year-end.

All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budget during the year).

TOTAL DIRECT AND OVERLAPPING DEBT			<u><u>\$71,447,683</u></u>

* For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the Township's boundaries and dividing it by each unit's total taxable assessed value.

** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Township. The schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Township. This process recognizes that, when considering the Township's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.
