General Order 2405		none
By order of:  Chief of Police		

I. Purpose

The purpose of this policy is to provide officers with guidelines on the use of Body Worn Cameras (BWC) as an effective tool to help audio/visually document events as they actually occur.

Recent changes to Pennsylvania Law allow uniformed law enforcement officers or clearly identifiable law enforcement officers on official duty such usage. Future changes in law and procedure, technology (e.g., facial recognition), as well as training provided on this procedure, may give rise to modifications of this policy.

II. Policy

When permissible under Pennsylvania Law, officers shall activate the BWC to record contacts with citizens in the performance of their official duties, pursuant to this policy.

Officers and citizen safety shall be the primary consideration when interacting with citizens and/or suspects. There may be instances in which officers are unable to activate their BWC due to circumstances making it unsafe, impossible, or impractical to do so. In these exigent circumstances, officers shall begin recording with their BWC at the first reasonable opportunity to do so and document the reason for the delayed start in the incident report and/or as part of the recording.

The Peters Township Police Department (PTPD) recognizes that video images cannot always show the full story nor do video images capture an entire scene. The PTPD also recognizes that the BWC video does not mirror the perspective of

the officer at the time of an incident, nor does the video include other factors known to or perceived by the officer that could impact the officer's judgement and decision-making, such as events beyond the scope of the camera, the officer's "reactionary gap", or the difference between human vision and the camera's video recording abilities. Therefore, the use of body-worn cameras does not reduce the requirement to provide thorough, written documentation of an incident.

This policy does not regulate the use and operation of Mobile Video Recording (MVR) equipment that is permanently mounted inside of some PTPD owned vehicles (Refer to General Order 2209).

There shall be an administrative review of the BWC program, including this General Order, at least annually. Statutory changes as well as national best practices will be part of this review.
